

Technical data sheet

Aluminium utensil detergent

P 865 Plus

Powdery, defoaming, aluminium-compatible detergent for utensil washers

AREA OF APPLICATION:

- Suitable for professional utensil washers in bakeries and butchers' shops as well as restaurants, hotels and commercial catering kitchens
- Effectively removes grease, starch and protein remnants from all equipment used in food preparation
- Especially suitable for cleaning heavily soiled utensils like containers, bowls, baking sheets, delivery containers, trays, pots and pans
- Suitable for all types of dishes made of aluminium, stainless steel, plastic and porcelain, as well as cutlery
- Check anodised aluminium first

For optimum cleaning results we recommend using this product in Winterhalter utensil washers in conjunction with Winterhalter rinse aids a Winterhalter water treatment.

PRODUCT ADVANTAGES:

- Odour-neutral, highly concentrated
- Good cleaning performance
- Very good grease and protein solubility
- Integrated defoaming ensures effective washing mechanism

DOSAGE:

With automatic dosing equipment, depending on the degree of soiling and the water quality:

Total hardness in			Hardness range	mg/l CaCO ₃	ml/l
°d	°f	°e			
< 8	< 14,25	< 10	weich	< 150	2-3
8-14	14,25-25	10-17,5	mittel	150-250	3-4

INGREDIENTS:

Alkalis, phosphates, amphoteric tenides

The integrated defoamer prevents undesirable foam formation and ensures that the machine uses its full washing power.

IMPORTANT:

- Product is not intended for the general public. For commercial use only!
- P 865 Plus can be used in connection with all customary detergents for commercial dishwashing machines and is suitable for the food sector.
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight. Protect from freezing.
- Never mix with other products and do not refill in other containers, bottles etc.!
- To ensure that your dishwasher functions durably and reliably, all filters should be cleaned at end of operation after the self-cleaning programme has ended. Leave the machine open slightly so the interior can dry and in order to build up corrosion protection.
- The washing parameters should be kept in accordance with the DIN guidelines (DIN 10 510 to 10 512 and DIN 10 522). Information of Working Party of Commercial Dishwashing should be kept in mind. In context refer to: www.akggs.de
- In all areas of food processing, our especially harmonised hand cleaning, disinfection and care products H 1, H 2, H 3 and H 4 guarantee that hand hygiene is as effective as necessary while also being as gentle to the skin as possible.
- You will find this product's safety data sheet, technical data sheet and sample operating instructions on our homepage at www.winterhalter.biz
